Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant sent to examiner an informal fax enclosing background information regarding amended terminology of Amendment After Final. Applicant stated that for clarification of claimed invention, "providing ... to" has been amended by "combining ...at". On the other hands, Examiner interpreted that the scope of claim has been changed. Because by providing two signals to a node, step "subtracting" may not perform at that node. In other words, two signals may be added together at that node, then at somenode down the path, "subtracting" will be performed. No agreement was reached.
